Dear President,

Many thanks for your letter dated 6th October in which you informed me about your new project with IFIUS.

We are very happy that you continue to imbue in young people common human values in general and Olympic values in particular.

I believe that your new project opens new and greater opportunities for university students to learn the values that will prepare them for roles in leadership in future.

Please kindly express the IOC's gratitude to your colleagues for your wonderful support of the Olympic Movement, your enthusiasm and your contribution.

Sincerely,

A handwritten signature in black ink that reads "Jacques Rogge".

Jacques Rogge
